Distraction Burglary

When anyone calls at your door, follow these 5 steps to stay safe and sound.

1) Put your Safety Chain on.

Keep the door closed; ask who it is and what they want.

2) Have they got an appointment?

If Yes – Check their identity card and make sure it has their company on it.

If No - **Do not open the door for any reason.**

3) If they say they are from a Utility Company, ask them for your Password if you have one.

- 4) Real callers will always be ready to make a new appointment at a time that is safe and better for you.

Maybe when you have a friend with you.

- 5) Do not accept any offers from anyone who wants to do any works to your home, inside or out.

Always use a company you can trust to do building works or repairs.

IF IN DOUBT, KEEP THEM OUT.

IF YOU ARE WORRIED, DIAL 999 AND TELL THE POLICE
