

We want to speak to you about cancer screening for people with learning disabilities!

What is this study about?

We want to help improve access to cancer screening for people with learning disabilities.

We would like to find out what makes cancer screening easier or more difficult for people with learning disabilities to do.

What are we going to do?

We will speak to different professionals about cancer screening for people with learning disabilities. This can take place online or on the phone.

Who do we want to speak to?

Third sector cancer organisations

Breast screening radiographers, primary care nurses, GPs

Third sector organisations for people with learning disabilities

Government screening and learning disabilities leads

Care organisations

Cancer screening coordinators

Learning disability nurses

Devolved national public health agencies

How can I find out more?

Please contact the researcher. She can send you more information and would be happy to answer any questions you have.
