

Whatever the situation, whoever the patient...

Blood sampling is quick, easy and painless **with TAP II**

When a blood sample is required, TAP II lets you do it quickly and painlessly – usually in under 2 minutes:

- No syringe or painful finger pricks
- Uses needles thinner than a human eyelash

YourBio Health has validated that TAP II samples give equivalent results to venous samples for a wide range of analytes including:

- Haemoglobin A1c
- Total cholesterol
- HDL-cholesterol
- LDL-cholesterol
- Triglycerides
- Anti-SARS-CoV-2 antibodies

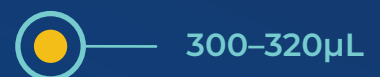

Patients find TAP II easy to use¹

91.5% of samples collected analysed successfully.

Successful analysis, time after time

99% of samples collected by healthcare professionals can be successfully analysed.²

Minimal sample size

Just 300–320 microlitres, which can be collected in less than 2 minutes.
