● About Time to Connect

Over the last 2 ½ years, Time to Connect has explored how to enable people with learning disabilities and older people living in care settings, to be part of their communities. Working with providers, this ground-breaking project has supported people to connect, make friendships and contribute to the communities and neighbourhoods around them improving their quality of life.

● Our Partners

NDTi, in partnership with Timebanking UK, a number of time banks and support provider organisations, have, developed staff skills, created changes and ultimately, helped more people be active and connected. The timebanking concept has provided a structure of time exchange encouraging involvement and enabling people to give as well as receive support.

It's time to change...It's **Time to Connect.**
