

Knowledge about Autism among Pakistani and Bangladeshi Immigrants in the United Kingdom

VOLUNTEERS NEEDED

University of
Greater
Manchester

WHAT IS THE STUDY ABOUT?

This project is run by PhD student Ahad Warsi who is exploring levels of knowledge about Autism among first and second generation Pakistani and Bangladeshi adults. This study will examine the relationship between acculturation and knowledge about Autism stigma amongst this population.

WHO CAN TAKE PART?

- First- and second-generation immigrant from Pakistan or Bangladesh living in the UK
- Have access to a device with internet connection
- Have 20 minutes to spare to complete the survey
- If you meet these criteria, Scan the QR code to get started!

IF YOU REQUIRE MORE INFORMATION,
